

Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	17
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Prepare final project presentation
Submit final report and code
Record project video documentation (if required)

Work Completed:

We finalized the project presentation and submitted the report along with our code for evaluation.

Challenges Encountered:

Balancing multiple final tasks while maintaining high quality was quite challenging.

Solutions Implemented:

We prioritized our tasks and collaborated effectively within the group to manage our workload.

Tasks for Next Week:

We will record and finalize the project video documentation to show our project achievements and findings.
