

Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	15
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

### Main Tasks Assigned:

Implement error analysis on misclassified data points  
Adjust model and retrain to address identified issues  
Begin drafting the mid-term project report

### Work Completed:

We completed an error analysis that identified misclassified data points and retrained the model to address these issues.

### Challenges Encountered:

We had difficulties in finding the exact reasons for misclassifications, which complicated the retraining process.

### Solutions Implemented:

We added a feedback loop that allowed the model to learn from corrections, enhancing its ability to handle similar queries in the future.

### Tasks for Next Week:

We will draft the mid-term project report, summarizing findings and methodologies, while preparing for final tests.

### Instructor's Feedback:
